Mr. Edward Marion, Administrative Law Judge
Public Service Commission of Wisconsin
610 N. Whitney Way
P.O. Box 7854
Madison, WI 53707-7854

RE: INTERVENOR REQUEST

137-CE-139

Application of American Transmission Company, as an Electric
Public Utility, to Construct a New Waunakee Substation and Build
A New 138 kV Line From the North Madison Substation to the New
Waunakee Substation in the Towns of Vienna and Westport, Dane
County, WI

Judge Marion,

James and Nancy CaPaul own residential and rental property along CTH 113 and Kennedy Drive in the Township of Westport. Our property would be directly and significantly affected by one of the routes proposed by ATC. One of the proposed 138 kV lines would directly negatively affect our present and future enjoyment of our property, present and future use of our property, the present and future value of our property, and more importantly, the health and safety of ourselves our children and grandchildren. ATC stated that our home is the closest in proximity to one of the proposed transmission routes.

Further, without intervenor status, we would have no ability to analyze and challenge the accuracy and legitimacy of the confidential information presented in support of ATC's proposal. It is highly foreseeable that the lack of access to this important information could put us at a disadvantage in effectively providing the Commission with our position on this issue.

As such, we respectfully request intervenor status in this docket.
